Attachment to Form 990 Schedule A, 2006

Explanation of activity in section III of form 990 Schedule A

In item 2c, it was noted that the OCBC furnished goods and/or services to people falling into certain categories on the list enumerated in section III. As a related service to the mission of bicycle education, the OCBC sells bicycle parts and accessories on a limited basis, as well as used bicycles. These are available to all people, including trustees, substantial contributors, key employees, and anyone else who fits those categories. Certain people from these categories have purchased items from the OCBC in the last year. Additionally, none of these people are excluded from the OCBC's program of giving some credit for volunteering toward used parts and bicycles, and some people in these categories have taken part in this program – the board of trustees was comprised of active volunteers for all of 2006.

Compensation, noted on line 2d, was paid to both OCBC employees (both are “key” employees, one was a board member) in 2006.
